

## EDWARD JONES DOME RENOVATION

**KWAME** acted as the owner's representative on the \$30 million upgrade of the Edward Jones Dome at America's Center, the home of the St. Louis Rams. All of the renovations were completed in time for the St. Louis Rams' 2009 season.

Improvements to the sports and convention facility included larger, state-of-the-art scoreboards and video boards in both end zones, renovations to the Rams Club in the north end zone, a new Premium Club in the south end zone and a new club for personal seat license holders on the north end. Four luxury suites were converted into a new party space and the stadium's control room was upgraded.
